SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Angular

Backend: Node.js, Express, REST API:er, SQLite

UI: Material UI, responsive design, accessibility

Tools: Git, GitHub, VS Code

Development Practices: Component-based development, debugging, documentation

INTERNSHIP

Hitract / HitCrib's | Frontend Developer

- Contributed to a large-scale project using Next.js and Material UI
- Built and improved components, tables and interactive views
- Worked with TypeScript, React, internationalization (i18n) and UI improvements

PROFILE

I am a motivated and curious frontend developer with full-stack development skills gained through a two-year vocational education program. During my studies and internship, I worked with React, Next.js, TypeScript, Material UI, Node.js/Express and SQLite. I also have several years of experience in technical work, customer service and documentation, which has strengthened my problem-solving skills and ability to work in a structured way. I am now looking for my first role as a frontend developer, where I can continue to grow, contribute to a team and build user-friendly web solutions.

WORK EXPERIENCE

Granberg Interior AB, Norrköping 09/2019 – 07/2023
